

### Technical data: Control box S-RT101

Control voltage:	230V
Protection rating:	IP 65
Ik max.:	6kPa
Max. relay:	10A
Supply earth:	TN
Order no.:	09 622 200

### Description S-RT101

Control box for temperature sensor type RT101 for converting opening signal.

### Construction

- Protection rating IP 65 with relay for converting of opening to closing signal as well as potential-free contact set for parallel signal to CTS

### Application

- Used together with temperature sensor type RT101, where it is connected as safety component with opening signal as well as when several signal outputs are required.
